(a) Includes figures for the Eden Canal which was amalgamated with the Damodar Canal system with effect from the year 1933-34.

3. **General.**—The total capital expenditure of the Department of Communications and Works, Irrigation Branch, during 1936-37 was Rs. 7,96,062 after deducting receipts and recoveries on capital account amounting to Rs. 9,192, as against Rs. 5,26,020 in the previous year. The major portion of this capital outlay was on the Damodar Canal project, only about Rs. 3,100 being spent on dredging the Bidyadhari river.

The construction of the Damodar Canal, which was started in 1926-27, was completed during the year under review. The project has been designed to irrigate about 200,000 acres of land, mostly for cultivation of paddy in the districts of Burdwan and Hooghly. The revenue account of the canal was opened from the 1st April 1933, and the construction estimate closed from the 30th September 1935. The flood of August 1935, which was the highest known since 1913, caused considerable and serious damage to the main weir of the canal called the Anderson Weir, necessitating the reconditioning of the weir and heavy special repairs to protective works downstream of all structures in the canal system. An estimate amounting to Rs. 12,98,208 was sanctioned and the special repair works were taken up during the cold weather of 1935-36 and were nearly completed during the year under review.

The rainfall in the area served by the Damodar Canal system was not well distributed during the year under review with the result that there was a great demand for canal water at times especially during the months of June and October. The supply of canal water was adequate and ensured a bumper crop in the areas. The total area actually irrigated was 133,101 acres as compared with 132,278 acres in the previous year. As in the previous year crop cutting experiments were carried out in several mauzas and it was established that the outturn of crops was very satisfactory.

The Bengal Development Act XVI of 1935 which provides for the development of lands in Bengal and imposes a levy in respect of increased profits resulting from improvement works constructed by Government came into force from 23rd January 1936. This enactment was the outcome of the suggestion in the Irrigation Committee's Report, 1930, that the cost of schemes financed by the

Government out of loan funds should be met by means of a cess levied at a flat rate in the total area benefited. The Damodar Canal project was brought under the operation of the Bengal Development Act during the year under review.

The newly constructed Bakreswar Irrigation Canal in the Birbhum district irrigated 5,621 acres of land as against 6,489 acres in the previous year. The reduction in the area irrigated by this canal was due to non-execution of leases as a result of ample rainfall.

The project for the construction of the Grand Trunk Canal to provide a shorter inland steamer route from Calcutta to Eastern Bengal and Assam was held in abeyance and the capital expenditure already incurred was written off with the sanction of the Government of India. An expenditure of Rs. 7,311 charged to revenues was, however, incurred on the upkeep of buildings on the acquired land and on petty establishment and tools and plant, with a return of Rs. 9,530 on account of rent, etc.

Experiments with the operation of the locks and sluices on the Lower Kumar river were made with a view to reducing siltation in the river.

The expenditure on revenue account during the year amounted to Rs. 25,62,039 of which Rs. 5,47,626 was spent on irrigation works proper, the principal items being the Midnapore, Bakreswar, Damodar and Eden Canals and the contour survey in Central and Western Bengal. The expenditure on the Midnapore Canal was Rs. 1,27,315 which included Rs. 40,139 for maintenance and repairs and Rs. 86,775 for overhead charges. The expenditure on the Bakreswar Canal was Rs. 13,753 while that on the Damodar Canal including the Eden Canal amounted to Rs. 2,75,529. The administrative approval of Government was accorded to contour surveys of certain areas in Central and Western Bengal being undertaken at an estimated cost of Rs. 1,46,000 as it is expected that from such surveys, projects and schemes will emerge in the near future which will be remunerative and suitable for adoption under the Bengal Development Act. The survey for which a programme of three years was drawn up commenced from the cold season of 1936 and a total sum of Rs. 91,257 including Rs. 63,071 during the year under review, was spent. The rest

of the expenditure on revenue account was on navigation, embankment and drainage works. The expenditure on navigation was mainly for (1) upkeep of the five suction dredgers, (2) maintenance of the Hijili Tidal Canal, (3) maintenance of the existing steamer and boat routes from Calcutta to Eastern Bengal and Assam including the reconstruction of the bridges over the Calcutta Canals and Tolly's Nala to the cost of which the Calcutta Improvement Trust and the Calcutta Corporation contributed in certain cases and (4) conservancy of some of the principal navigable rivers of the province such as the Ganges, the Dhalleswari and the Buriganga. The expenditure on the Hijili Tidal Canal, the Calcutta and Eastern Canals, the Sunderbans Steamer Route and the Madaripur Bil Route was Rs. 41,523 Rs. 4,34,494, Rs. 56,772 and Rs. 1,68,485 respectively as compared with Rs. 1,32,212, Rs. 5,55,017, Rs. 47,188 and Rs. 1,82,085 respectively in the previous year. There was a marked decrease in the working expenses of the principal navigable canals, except the Sunderbans Steamer Route. The cost of the upkeep of the dredgers amounted to Rs. 4,39,972 as against Rs. 92,915 in the previous year. The adjustment of the loss of Rs. 2,08,777 on stock due to revaluation of the rates, etc., of the spare parts of the dredgers by *per contra* credit to their stock account and the special repairs to the dredger "Ronaldshay" in preparation for the work of dredging the new Storm Water Channel for the Calcutta Corporation account for the increased expenditure during the year under review. Out of the 5 suction dredgers, 3 were laid up throughout the year; the remaining dredgers "Alexandra" and "Foyers" were employed on dredging shoals in the Madaripur Bil Route and the Lower Kumar river during the months of October and November.

The total revenue receipts and expenses during the year were Rs. 15,18,194 and Rs. 25,62,039 respectively as against Rs. 13,78,369 and Rs. 25,94,249 in the previous year. The appreciable increase of about Rs. 1,40,000 of revenue was due mainly to the increased collection of water rates in the Midnapore Canal area and tollage in the Sunderbans Steamer Route and the Madaripur Bil Route. The financial results of the navigation canals were on the whole more favourable than in the previous year, as the receipts were

on the increase and the working expenses were less.

Owing to financial stringency it was not possible to undertake any of the major schemes already administratively approved and the policy of Government had still perforce been restricted to smaller schemes of local benefit. The Ghuznavi Cut, a channel connecting the Mathabhanga river with the Nabagan-ga near Meherpur constructed in 1933 by the District Board of Nadia with a contribution from Government and the Bejoy Cut to flush the Bhairab Kobadak river by means of a junction cut from the Mathabhanga at Joynagar carried out by the District Board of Nadia in 1935 are instances of schemes of this nature. Both these cuts worked very satisfactorily during the year.

An amount of Rs. 3,03,000 was allotted to this department out of the Government of India grant of about Rs. 16,00,000 to this province for rural upliftment. The amount was meant for executing small drainage and flushing schemes to improve rural conditions. Accordingly schemes of this nature were selected in some of the districts of Bengal in consultation with the district authorities and district boards in 1935-36. Many of such schemes have been completed and the remainder are in progress.

The free flushing of the malaria-stricken areas in the Narayangarh, Pingla and Kola-Panskura areas of the Midnapore district with the water of the Midnapore Canal was continued. The area actually flushed was 2,930 acres including tanks, dobas, basties and paddy fields. The result was on the whole satisfactory.

Flushing of the Gobra Nalla by the water of the Kalkali river through the Gobra Cut was very satisfactory. Most of the water hyacinth was passed down by the strong current and this resulted in considerably improving the sanitary condition of the people. Actually an area of 1,700 acres was flushed. Flushing by the Uttampur Cut connecting Jalangi river at Uttampur with the Bhairab river at Natua was satisfactory. The Bhairab river was practically cleared of water hyacinth.

The department maintained about 1,247 miles of embankments during the year. The policy of gradually abandoning those embankments which by experience have been found to be injurious

to the country by obstructing the free discharge of flood water was continued and a length of about 18 miles of existing embankments was abandoned. The total amount spent on maintenance of embankments and drainage works, such as Magrahat drainage works, Rajapur drainage works, etc., was Rs. 6,42,313 against Rs. 9,00,895 in the previous year.

The department has also to deal with the protection of towns from river erosion. During the year under review, the cost of the protective measures against the erosion of the river Dharla which threatens the existence of the subdivisional town of Kurigram, amounted to Rs. 12,844. The work in connection with the brick mattress at Nawabganj in the Rajshahi district was undertaken and completed during the year at a cost of Rs. 9,769. Periodical observations were made of the erosion at Noakhali and Chandpur.

The department also undertakes surveys and investigations with a view to examining the feasibility of working out schemes for irrigation and drainage purposes. It also conducts discharge observations and collects hydraulic data of all important rivers. Apart from the contour survey of Central and Western Bengal already mentioned, many important surveys and investigations were carried out during the year of which the following were the chief:—

(1) Observing hydraulic conditions in the Malda district, (2) taking gauge readings and discharge observations of important rivers of North Bengal, (3) collecting hydraulic data for improving the rivers Bhagirathi, Kumar, Jalangi and Nabaganga, (4) taking borings in connection with the Darakeswar reservoir project, (5) examining the bed of the river More at the site of the Messanjore reservoir dam, (6) survey in connection with a proposed embankment at Bararchar, (7) observation of the spill condition of the river Jamuna from Jagannathganj to Patal and (8) survey in connection with some drainage projects in the Gopalganj subdivision.

The following is a list of important works under execution or in charge of this department:—

#### 4. The Damodar Canal project.

The total capital expenditure (direct and indirect) to the end of the year 1936-37 was Rs. 1,19,05,919 as against the revised estimate of Rs. 78,14,981 sanctioned by the provincial Government in 1925. A second revised estimate which was prepared by the Chief Engineer showing up-to-date financial results is considered unnecessary at this stage and it has been decided to deal with the excess expenditure on the project in the completion report now under preparation. Receipts and expenditure inclusive of the Eden Canal during the year amounted to Rs. 4,92,820 and Rs. 2,75,200 respectively as against Rs. 4,74,182 and Rs. 2,15,993 in the previous year. The result was a net revenue of Rs. 2,17,291 against Rs. 2,58,189 in the previous year.

**5. The Bakreswar Irrigation Scheme.**—The construction work in connection with the scheme was started in 1927. There was no capital outlay during the year and the total capital expenditure (direct and indirect) to the end of the year amounted to Rs. 7,13,875 against the sanctioned estimate of Rs. 4,90,596. The completion report is under examination. The gross revenue and working expenses during the year were Rs. 18,810 and Rs. 13,753 respectively, the result being a net revenue of Rs. 5,057 as against Rs. 3,122 in the previous year.

**6. The Midnapore Canal.**—The canal consists of two weirs at Midnapore and Panskura, 65½ miles of main and branch canals used both for irrigation and navigation purposes and 284·87

miles of distributaries and village channels. No capital expenditure was incurred on the canal during the year. The gross receipts and working expenses were Rs. 1,25,832 and Rs. 1,27,315 respectively as against Rs. 61,785 and Rs. 1,31,834 in the previous year. The result was a deficit of Rs. 1,483 against that of Rs. 70,049 in the previous year.

**7. The Grand Trunk Canal project.**—As alluded to in paragraph 3 above the project was held in abeyance and the entire capital expenditure amounting to Rs. 13,78,862 incurred on it to the end of the year 1935-36 was written off from the capital accounts without any financial adjustment with the sanction of the Government of India. The project now comes under the category of works for which neither capital nor revenue accounts are kept.

**8. The Hijili Tidal Canal.**—This khal with the Terapakhia Pass Khal, Palaboni khal and the khal leading to the Gewankhali lock entrance constitutes a navigation canal 49½ miles in length. No capital expenditure was incurred on the canal during the year. The gross receipts and working expenses amounted to Rs. 56,620 and Rs. 41,523 respectively as against Rs. 63,900 and Rs. 1,32,212 in the previous year, the result being a net revenue of Rs. 15,109 as against the deficit of Rs. 68,312 in the previous year.

**9. The Calcutta and Eastern Canals.**—These consist of natural and artificial channels, about 834 miles long for maintaining communication between Calcutta and Eastern Bengal. There was no capital expenditure on these canals during the year. The gross receipts and working expenses were Rs. 3,75,161 and Rs. 4,34,494 respectively as against Rs. 3,27,525 and Rs. 5,55,017 in the preceding year. The result was a deficit of Rs. 59,333 against that of Rs. 2,27,492 in the previous year.

**10. The Sundarbans Steamer Route.**—This route is about 350 miles long. There was no capital expenditure on it during the year. The gross revenue and working expenses amounted to Rs. 77,305 and Rs. 56,772 as against Rs. 63,312 and Rs. 47,188 in the previous year, resulting in a net revenue of Rs. 20,533 as against the net revenue of Rs. 16,124 in the preceding year.

**11. The Madaripur Bil Route.**—The route connects the Madhumati and Kumar rivers in the Faridpur district

and is about 36 miles in length. There was no capital expenditure on it during the year. The gross revenue and working expenses were Rs. 1,75,221 and Rs. 1,68,485 respectively as against Rs. 1,54,890 and Rs. 1,82,085 in the previous year; the result was a net revenue of Rs. 6,736 against a deficit of Rs. 27,195 in the previous year.

12. **Dredgers.**—As already stated in paragraph 3, of the five suction dredgers, the "Alexandra" and the "Foyers" were employed for 26 and 15 days respectively. The hire earned by the "Alexandra" amounted to Rs. 7,852 of which Rs. 2,938 was credited to the capital account and the balance, viz, Rs. 4,914 to the revenue account. The amount of Rs. 12,311 earned by the "Foyers" as hire was credited to the revenue account of the dredger. The other three dredgers "Ronaldshay", "Cowley" and "Burdwan" remained idle throughout the year. But the "Ronaldshay" earned as hire Rs. 1,960 for the use of certain of her pontoons. Out of this Rs. 756 was credited to her capital account and Rs. 1,204 to the revenue account. The "Cowley" also earned similarly Rs. 392 as hire, of which Rs. 140 was credited to her capital account and Rs. 252 to the revenue account.

Taking all the dredgers together, the revenue receipts amounted to Rs. 21,555 while their working expenses were Rs. 4,39,972 as against Rs. 92,915 in

the preceding year. The reason for the large increase in the working expense in comparison with the previous year has been explained in paragraph 3 above.

13. **Minor Irrigation, Navigation, Embankment and Drainage works for which neither Capital nor Revenue accounts are kept.**—These include the Amjore Weir, the Salbunh Weir, the Orissa Coast Canal, the Nadia rivers, the Magrahat drainage scheme, Government embankments, the surveys and other works enumerated in the list at the end of paragraph 3 above. Total receipts from these works amounted to Rs. 1,74,858, while their working expenses were Rs. 10,04,196 as against Rs. 12,24,583 in the preceding year. The decrease in the working expenses was due to a fall in the expenses incurred on the embankments.

14. **River Training works.**—Training works were carried out in the rivers Dhalleswari and Buriganga in order to maintain a navigable depth of water during the low water season and to ensure a supply of good drinking water to the city of Dacca. The work was carried out through the agency of the Joint Steamer Companies with a Government subsidy of Rs. 17,500.

**DEFENCE DEPARTMENT.**

Simla, the 21st May 1938.

**Part B.****RESOLUTION.**

No. 525.—The Governor-General in Council hereby makes the following rules for the regulation of admission to the Indian Military Academy by examination in India which will be held on the 19th October 1938 and subsequent days:—

**RULES.**

1. (i) A candidate who desires to appear at the examination shall apply to be admitted to the examination before such date and in such form as the Federal Public Service Commission may prescribe. The application shall be made through the Collector or Deputy Commissioner of the district in which his parents reside at the time of the application, or have previously resided for a period of not less than three years, or in which he has himself resided, otherwise than as a student at an educational institution only for a like period.

(ii) In the case of Calcutta applications shall be submitted through the Commissioner of Police.

(iii) Cadets of the Prince of Wales's Royal Indian Military College, Dehra Dun, shall submit their applications through the Principal of the College.

(iv) A candidate resident in an Indian State shall submit his application through the Durbar, who will forward it to the Political Officer or Agent.

(v) No candidate shall make more than one application in respect of this examination.

(vi) A candidate shall, except in very exceptional circumstances, appear personally before the District Officer or the Political Officer or Agent who signs the attestation form.

2. A candidate must be an unmarried man and either—

(a) a British subject of Indian domicile or a European or Anglo-Indian or Indian or Burman domicile whose father (if alive) is a British subject or a subject of a State in India, or a British protected person of the tribal areas; or (if dead) was at the time of his death either a British subject or a subject of a State in India or a British protected person of the tribal areas, or a person in the permanent service of the Crown or a person who had retired from that Service;

(b) a Ruler or a subject of a State in India or a British protected person of the tribal areas.

Provided that in the case of a British subject the requirements of this rule may be waived by the Secretary of State in Council if he is satisfied that their observance would occasion exceptional hardship, and that the candidate is so closely connected by ancestry and upbringing with His Majesty's dominions as to justify special treatment.

3. The guarantors of a candidate selected for admission to the Indian Military Academy will be required to covenant with the Secretary of State in Council that the parent or guardian of the cadet will discharge from his own personal resources all the financial obligations attaching to the training of his son or ward at the Academy, and that in the event of failure to comply with certain contingencies set forth in an Indenture relating to the completion of the course at the Indian Military Academy, and thereafter, the acceptance of a commission in the Indian Land Forces, and the period he is required to hold such a commission, he will pay the full cost which the Government of India shall have expended on the education of the cadet at the Academy. Should it be found that the declaration in regard to discharge of financial obligations at the Indian Military Academy is false in any respect, the cadet will be liable to immediate removal from the Academy.

4. The maximum number of candidates to be admitted to the examination may, in the discretion of the Governor-General in Council, be limited to such number as the Governor-General in Council may decide. If a limit is imposed and the number of candidates exceeds that limit, the Federal Public Service Commission shall select from among the applicants those who shall be admitted to the examination and shall have regard in so doing to the suitability of the applicants for employment as commissioned officers in the Indian Army.

5. A candidate for this examination must have been born not earlier than the 2nd November 1918 and not later than the 1st November 1920.

6. A candidate must be in good mental and bodily health and free from any physical defect likely to interfere with the efficient performance of the duties of a commissioned officer in the Indian Army. A candidate who, after examination by a Medical Board, is found not to satisfy these requirements will not be accepted for admission to the Academy.\*

7. A candidate must satisfy the Federal Public Service Commission that he is suitable in all respects for employment as a commissioned officer in the Indian Army.

8. The decision of the Federal Public Service Commission as to the eligibility or otherwise of a candidate shall be final.

9. No candidate shall be admitted to the examination unless he holds a certificate of admission from the Federal Public Service Commission.

\*Only successful candidates will be medically examined. Candidates are recommended to consult a Civil Surgeon as to their physical suitability before entering for the examination.

10. Any attempt on the part of a candidate to enlist support for his application will disqualify him for admission to the Indian Military Academy.

11. (a) A candidate who competed in the examination held in March/April 1938, and failed to obtain a qualifying mark, will not be allowed to compete at the examination to be held in October 1938, unless he is ineligible by age to compete at any later examination.

(b) No candidate who fails to obtain a qualifying mark at this examination will be allowed to compete at the next examination unless that examination is the last at which he would be qualified by age to compete.

12. Candidates must pay the following fees:—

- (i) Rs. 7-8-0 with the application form,
- (ii) if accepted for admission to the examination, Rs. 50 immediately after the receipt of the certificate of admission.

†

(Only Treasury Receipts for these amounts will be accepted by the Federal Public Service Commission.)

No claim for a refund of these fees will be entertained, nor will they be held in reserve for a subsequent examination.

13. The examination will include the following subjects and the maximum number of marks obtainable for each subject is as follows:—

Part I.—Obligatory.

	Max. Marks.
1. Interview and Record	500
2. English Language	300
3. General Knowledge	200
4. Elementary Mathematics	200
5. Geography	200

Part II.—Three of these subjects, and not more, up to a total value of 800 marks may be taken, except as provided below:—

(NOTE.—A candidate who offers only one Mathematics subject in Part II, *i.e.*, either Lower or Higher Mathematics, is not precluded from offering Elementary Mathematics in Part I.

NOTE.—All candidates on joining the Indian Military Academy may volunteer to be considered for the technical arms, and will be given a test examination in Mathematics. Those who show a satisfactory standard of knowledge will be formed into a Preparatory Woolwich Wing during the 1st and 2nd terms.)

15. From the marks assigned to candidates in each subject such deduction will be made as the Federal Public Service Commission may consider necessary in order to secure that no credit is allowed for merely superficial knowledge.

16. If a candidate's handwriting is not easily legible a deduction, which may be of considerable amount, will be made on this account from the total marks otherwise accruing to him.

ORDERED that the Resolution be published in the *Gazette of India*.

### NOTICE.

No. 526.—A competitive examination for entry to (1) the Indian Military Academy, Dehra Dun, in the term beginning on the 27th January 1939; and (2) the Royal Indian Navy will be held in Delhi on Wednesday, the 19th October 1938, and subsequent days. The examination will be conducted by the Federal Public Service Commission.

2. The examination will be a combined one for the purpose of filling vacancies in the Indian Military Academy, and the Royal Indian Navy. A candidate may apply to be admitted to the examination for both or either. If he wishes to be admitted as a candidate for both, he should state this on his application form. Separate applications are not required. He will be required to pay the application and examination fees once only. If he proves successful as a candidate for both he will ordinarily be assigned to the one for which he expressed a preference in his application; but the Government of India reserve power to assign him to either.

3. At this examination 15 vacancies will be offered for entry to the Indian Military Academy. The Governor-General in Council, however, reserves to himself the right to

fill the last three vacancies by nomination from among those who have qualified but failed to obtain sufficient marks to secure one of the first twelve vacancies. Four vacancies will be offered for admission to the Executive Branch of the Royal Indian Navy.

4. The examination will be the same for all arms of the Indian Army, *i.e.*, Cavalry, Artillery, Signals, Engineers and Infantry. All candidates on joining the Indian Military Academy may volunteer to be considered for the technical arms, and will be given a test examination in Mathematics. Those who show a satisfactory standard of knowledge will be formed into a Preparatory Woolwich Wing during the 1st and 2nd terms.

At the end of the 2nd term the Commandant will select the cadets to form a Woolwich Wing.

5. Candidates for admission to the Indian Military Academy must have been born not earlier than the 2nd November 1918, and not later than the 1st November 1920. Candidates for the Royal Indian Navy examination must have been born not earlier than the 2nd May 1919, and not later than the 1st May 1921. These age limits can in no case be relaxed.

6. A candidate who desires to appear at the examination is required to submit to the Federal Public Service Commission his application in the prescribed form with the necessary documents in accordance with "Instructions to Candidates". Applications must reach the Collector or Deputy Commissioner, or the Political Officer or Agent or the Principal, Prince of Wales's Royal Indian Military College, Dehra Dun, on or before the 1st July 1938. Copies of the Rules and the Application Form, etc., may be obtained from the Provincial Government, Administration or Durbar concerned.

THE FACT THAT AN APPLICATION FORM HAS BEEN SUPPLIED, ON WHATEVER DATE, WILL NOT BE ACCEPTED AS AN EXCUSE FOR THE LATE SUBMISSION OF AN APPLICATION. CANDIDATES WHO DELAY THEIR REQUESTS FOR FORMS UNTIL A LATE DATE WILL DO SO AT THEIR OWN RISK.

7. Applications should be sent by registered post. If a candidate fails to register his application, he does so at his own risk. If a candidate desires an acknowledgment, he should also send his application "registered, acknowledgment due".

NOTE.—If any candidate has appeared at the examination held in March/April 1938, for entry to the Indian Military Academy or the Royal Indian Navy, and, not being successful thereat, wishes to appear at the examination to be held in October, 1938, he must submit his application by the prescribed date without waiting for the results of the former examination. (2) Subject to rules made by the Provincial Government in this behalf, this section shall not apply to a person receiving instruction in driving a motor vehicle.

Age limit in connection with driving of motor vehicles.

**4.** (1) No person under the age of eighteen years shall drive a motor vehicle in any public place.

(2) Subject to the provisions of sub-section (3) of this section and of section 14, no person under the age of twenty-one years shall drive a locomotive, tractor or transport vehicle in any public place.

Responsibility of owners of motor vehicles for contraventions of sections 3 and 4.

**5.** No owner or person in charge of a motor vehicle shall cause or allow any person to drive the vehicle in contravention of the provisions of section 3 or section 4; and in the event of any such contravention a Court may presume that the vehicle was being driven with the consent of the owner or person in charge.

Restrictions on the holding of licences.

**6.** (1) No person shall, while he holds any licence for the time being in force except a licence issued under the provisions of sub-section (3) of section 4, hold any other licence except a licence issued in accordance with the provisions of section 14.

Grant of licences.

**7.** (1) Any person who is not disqualified under section 4 for driving a motor vehicle and who is not for the time being disqualified for holding or obtaining a licence may apply to the licensing authority having jurisdiction in the area in which he ordinarily resides or carries on business for the issue to him of a licence.

(2) Every application under sub-section (1) shall be in Form A as set forth in the First Schedule, shall be signed by, or bear the left thumb impression of, the applicant in two places, and shall contain the information required by the form.

(5) If, from the application or from the medical certificate referred to in sub-section (3), it appears that the applicant is suffering from any disease or disability specified in the said Form C or any other disease or disability which is likely to cause the driving by him of a motor vehicle of the class which he would be authorised by the licence applied for to drive to be a source of danger to the public, the licensing authority shall refuse to issue the licence:

Provided that—

(a) a licence limited to driving an invalid carriage may be issued to the applicant, if the licensing authority is satisfied that he is fit to drive such a carriage, and

(6) No licence shall be issued to any applicant unless—

(a) he passes to the satisfaction of the licensing authority the test of competence to drive specified in the Third Schedule, or

(b) where the application is made within twelve months from the commencement of this Act, he satisfies the licensing authority that he is at the time when the application is made the holder of a current licence granted under the provisions of the Indian Motor Vehicles Act, 1914, entitling him to drive a vehicle of the class or description which he would be entitled to drive under the licence applied for: .

VIII of  
1914.

Provided that, where the application is for a licence to drive a motor cycle or a motor car, the licensing authority may exempt the applicant from Part I of the test specified in the Third Schedule, if the licensing authority is satisfied that the applicant has had not less than twelve months' recent experience of driving a motor cycle or a motor car, as the case may be.

(7) The test of competence to drive shall be carried out in a vehicle of the type to which the application refers, and, for the purposes of Part I of the test,—

- (a) a person who passes the test in driving a motor car or a motor cab or a delivery van shall be deemed to have passed the test for all of these vehicles;
- (b) a person who passes the test in driving a light transport vehicle shall be deemed also to have passed the test in driving the vehicles referred to in clause (a); and
- (c) a person who passes the test in driving a heavy transport vehicle shall be deemed also to have passed the test in driving the vehicles referred to in clauses (a) and (b).

(8) When an application has been duly made to a licensing authority and the applicant has satisfied such authority of his physical fitness and of his competence to drive and has paid to the authority a fee of five rupees, the licensing authority shall grant the applicant a licence unless the applicant is disqualified under section 4 for driving a motor vehicle or is for the time being disqualified for holding or obtaining a licence, or neither ordinarily resides nor carries on business within the jurisdiction of the licensing authority:

Provided that—

- (a) the fee for a licence issued in accordance with the provisions of clause (b) of sub-section (6) shall be three rupees only, and

(2) An authority other than a registering authority shall, when making a suspension order under sub-section (1), intimate in writing the fact of suspension and the reasons therefor to the registering authority within whose jurisdiction the vehicle is at the time of the suspension.

(3) When by reason of an alteration in the number, nature or size of tyres attached to the vehicle the registered laden weight or any registered axle weight recorded in the certificate of registration no longer accords with the laden weight or the axle weight as determined in accordance with sub-section (2), the provisions of section 32 shall apply, and the registering authority shall enter in the certificate of registration a revised registered laden weight and registered axle weights.

Certificate of  
fitness of  
transport

(2) Subject to the provisions of sub-section (3), a certificate of fitness shall remain effective for three years, unless a shorter period, not being in any case less than three months, is specified in the certificate by the issuing authority.

(3) The issuing authority or other prescribed authority may cancel a certificate of fitness at any time, if satisfied that the vehicle to which it relates no longer complies with all the requirements of this Act and the rules made thereunder; and on such cancellation the certificate of registration of the vehicle and any permit granted in respect of the vehicle under Chapter IV shall be deemed to be suspended until a new certificate of fitness has been obtained.

(4) Notwithstanding anything contained in sub-section (1), a Provincial Government may, until the expiry of three years from the commencement of this Act, by rules made under section 39, dispense with the necessity for a certificate of fitness in the case of all or any transport vehicles in respect of which certificates of registration and permits had already been issued before the commencement of this Act.

Provided that a stage carriage permit shall, subject to any conditions that may be specified in the permit, authorise the use of the vehicle as a contract carriage:

Provided further that a public carrier's permit shall, subject to any conditions that may be specified in the permit, authorise the holder to use the vehicle for the carriage of goods for or in connection with a trade or business carried on by him.

(2) In determining, for the purposes of this Chapter, whether a transport vehicle is or is not used for the carriage of goods for hire or reward,—

- (a) the delivery or collection by a person of goods sold, used or let on hire or hire-purchase in the course of any trade or business carried on by him other than the trade or business of providing transport,
- (b) the delivery or collection by a person of goods which have been or which are to be subjected to a process or treatment in the course of a trade or business carried on by him, or
- (c) the carriage of goods in a transport vehicle by a manufacturer of or agent or dealer in such goods whilst the vehicle is being used for demonstration purposes,

shall not be deemed to constitute a carrying of the goods for hire or reward; but the carriage in a transport vehicle of goods by a person not being a dealer in such goods who has acquired temporary ownership of the goods for the purpose of transporting them to another place and there relinquishing ownership shall be deemed to constitute a carrying of the goods for hire or reward.

Provided that, where such representatives are included, equal representation shall be accorded to the business of motor transport, railway transport and, where necessary, inland water transport.

(4) Subject to the provisions of clause (b) of sub-section (3), no person who has any financial interest in any transport undertaking shall be appointed as a member of a Regional or Provincial Transport Authority; and if any person being a member of any such Authority acquires a financial interest in any transport undertaking he shall, within four weeks of so doing, give notice in writing to the Provincial Government and shall thereupon vacate office.

Provided that in no case shall the maximum or minimum fares be so fixed as to be unreasonable or so as, having regard to the cost of operation and the facilities provided, to give one permit holder or one form of transport any undue preference over another permit holder or another form of transport.

(7) When a Regional Transport Authority refuses an application for a permit of any kind, it shall, if so required by the applicant, give to him in writing its reasons for the refusal.

Duration and

(2) This section shall not apply to any vehicle owned by or on behalf of the Central Government or a Provincial Government, nor shall it apply to any vehicle owned by any person who has deposited with the Accountant General, Central Revenues, or the Accountant General of a Province the sum of one hundred thousand rupees, at any time when the vehicle is driven by the owner or by a servant of the owner in the course of his employment, or is otherwise subject to the control of the owner.

## Requirements of policies and limits of liability.

**93.** (1) In order to comply with the requirements of this Chapter, a policy of insurance must be a policy which

- (a) is issued by a person who is an authorised insurer, and
- (b) insures the persons or classes of person specified in the policy in respect of any liability specified in sub-section (2) which may be incurred by him or them in consequence of the death of or bodily injury to any person caused by or arising out of the use of the vehicle in a public place:

Provided that a policy shall not, except as may be otherwise provided under sub-section (3), be required—

- (i) to cover liability in respect of the death, arising out of and in the course of his employment, of a person in the employment of a person insured by the policy or in respect of bodily injury sustained by such a person arising out of and in the course of his employment, or
- (ii) except where the vehicle is used for the carriage of passengers for hire or reward, to cover liability in respect of the death of or bodily injury to persons being carried in or upon or entering or mounting or alighting from the vehicle at the time of the occurrence of the event out of which a claim arises.

(2) Subject to the proviso to sub-section (1), a policy of insurance shall cover any liability incurred up to the following limits, namely:—

- (c) where the vehicle is a vehicle of any other class, the amount of the liability incurred.

(3) A Provincial Government may prescribe that a policy of insurance shall in order to comply with the requirements of this Chapter cover any liability arising under the provisions of the Workmen's Compensation Act, 1923, in respect of the death of or bodily injury to any paid employee engaged in driving or otherwise in attendance on or being carried in a motor vehicle.

VIII of  
1923.

(4) A policy shall be of no effect for the purposes of this Chapter unless and until there is issued by the insurer to the person by whom the policy is effected a certificate of insurance in the prescribed form and containing the prescribed particulars of any conditions subject to which the policy is issued and of any other prescribed matters; and different forms, particulars and matters may be prescribed in different cases.

(5) Notwithstanding anything elsewhere contained in any law, a person issuing a policy of insurance under this section shall be liable to indemnify the persons or classes of person specified in the policy in respect of any liability which the policy purports to cover in the case of those persons or classes of person.

Duty of  
insurers to  
satisfy  
judgments  
against  
persons  
insured in  
respect of  
third party  
risks.

94. (1) If, after a certificate of insurance has been issued under sub-section (4) of section 93 to the person by whom a policy has been effected, judgment in respect of any liability referred to in clause (b) of sub-section (1) of section 93 (being a liability covered by the terms of the policy) is obtained against any person insured by the policy, then, notwithstanding that the insurer may be entitled to avoid or cancel or may have avoided or cancelled the policy, the insurer shall, subject to the provisions of this section, pay to the person entitled to the benefit of the judgment any sum payable thereunder in respect of the liability, including any amount payable in respect of costs and any sum payable in respect of interest on that sum by virtue of any enactment relating to interest on judgments.

(2) No sum shall be payable by an insurer under sub-section (1)—

- (a) in respect of any judgment unless before or within seven days after the commencement of the proceedings in which the judgment is given the insurer had notice of the bringing of the proceedings, or
- (b) in respect of any judgment so long as execution is stayed thereon pending an appeal, or

- (c) in connection with any liability if before the happening of the event which was the cause of the death or bodily injury giving rise to the liability the policy was cancelled by mutual consent or by virtue of any provision contained therein, and
- (i) before the happening of the said event either the certificate was surrendered to the insurer or the person to whom the certificate was delivered made an affidavit stating that the certificate was lost or destroyed, or
- (ii) after the happening of the said event but before the expiration of fourteen days from the taking effect of the cancellation of the policy either the certificate was surrendered to the insurer or the person to whom the certificate was delivered made such an affidavit as aforesaid, or
- (iii) either before or after the happening of the said event but within the said period of fourteen days the insurer has commenced proceedings under this Chapter in respect of the failure to surrender the certificate in accordance with section 102.

(3) No sum shall be payable by an insurer under subsection (1) in respect of any judgment if, in an action commenced before or within three months after the commencement of the proceedings in which the judgment was given, he has obtained a declaration that a breach has been established of a specified condition of the policy being one of the following conditions, namely:—

- (a) a condition excluding the use of the vehicle—
  - (i) for business purposes except by the insured or some named individual in person, or
  - (ii) for business purposes other than the business purposes of the insured, or
  - (iii) for the carriage of goods or samples in connection with any trade or business, or
  - (iv) for hire or reward, or
  - (v) for organised racing and speed testing, or
  - (vi) if a public service vehicle or goods vehicle, for a purpose not allowed by the permit under which the vehicle is used, or
  - (vii) if a motor cycle without side car being attached, or

  - (iii) a named person or persons, or
- (c) a condition excluding driving by—
  - (i) a named person or persons, or
  - (ii) any person who has been disqualified for holding or obtaining a driving licence, during the period of disqualification, or
- (d) a condition excluding liability for injury caused or contributed to by conditions of war, riot or civil commotion.

(4) No sum shall be payable by an insurer under sub-section (1) in respect of any judgment if, in an action commenced before or within three months after the commencement of the proceedings in which the judgment was given, he has obtained a declaration that apart from any provision contained in the policy he is entitled to avoid it on the ground that it was obtained by the non-disclosure of a material fact or by a representation of fact which was false in some material particular or that if he has avoided the policy on that ground he was entitled so to do apart from any provisions contained in it.

(5) Notwithstanding anything contained in sub-sections (3) and (4), an insurer who has obtained a declaration such as is referred to in those sub-sections in an action shall not thereby become entitled to the benefit of sub-section (3) or sub-section (4) as respects any judgment obtained in proceedings commenced before the commencement of that action, unless before or within seven days after the commencement of that action he has given notice thereof to the person who is plaintiff in the said proceedings specifying the breach of condition or non-disclosure or false representation on which he proposes to rely, and any person to whom notice of such an action is so given shall be entitled if he thinks fit to be made a party thereto.

(6) If the amount which an insurer becomes liable under this section to pay in respect of a liability incurred by a person insured exceeds the amount for which the insurer would apart from the provisions of this section be liable under the policy in respect of that liability, the insurer shall be entitled to recover the excess from that person.

(7) In this section the expressions "material fact" and "material particular" mean, respectively, a fact or particular of such a nature as to influence the judgment of a prudent insurer in determining whether he will take the risk and, if so, at what premium and on what conditions, and the expression "liability covered by the terms of the policy" means a liability which is covered by the policy or which would be so covered but for the fact that the insurer is entitled to avoid or cancel or has avoided or cancelled the policy.

Rights of  
third parties  
against  
insurers on  
insolvency of  
the insured.

**95.** (1) Where under any contract of insurance effected in accordance with the provisions of this Chapter a person is insured against liabilities which he may incur to third parties then—

- (a) in the event of the person becoming insolvent or making a composition or arrangement with his creditors, or
- (b) where the insured person is a company, in the event of a winding up order being made or a resolution for voluntary winding up being passed with respect to the company, or of a receiver or manager of the company's business or undertaking being duly appointed, or of possession being taken by or on behalf of the holders of any debentures secured by a floating charge of any property comprised in or subject to the charge;

if, either before or after that event, any such liability is incurred by the insured person, his rights against the insurer under the contract in respect of the liability shall, notwithstanding anything to the contrary in any provision of law, be transferred to and vest in the third party to whom the liability was so incurred.

(2) Where an order for the administration of the estate of a deceased debtor is made according to the law of insolvency, then, if any debt provable in insolvency is owing by the deceased in respect of a liability to a third party against which he was insured under a contract of insurance in accordance with the provisions of this Chapter, the deceased debtor's rights against the insurer in respect of that liability shall, notwithstanding anything to the contrary in any provision of law, be transferred to and vest in the person to whom the debt is owing.

(3) Any condition in a policy issued for the purposes of this Chapter purporting either directly or indirectly to avoid the policy or to alter the rights of the parties thereunder upon the happening to the insured person of any of the events specified in clause (a) or clause (b) of sub-section (1) or upon the making of an order for the administration of the estate of a deceased debtor according to the law of insolvency shall be of no effect.

(4) Upon a transfer under sub-section (1) or sub-section (2) the insurer shall be under the same liability to the third party as he would have been to the insured person, but—

- (a) if the liability of the insurer to the insured person exceeds the liability of the insured person to the third party, nothing in this Chapter shall affect the rights of the insured person against the insurer in respect of the excess, and
- (b) if the liability of the insurer to the insured person is less than the liability of the insured person to the third party, nothing in this Chapter shall affect the rights of the third party against the insured person in respect of the balance.

Duty to give  
information  
as to insurance.

**96.** (1) No person against whom a claim is made in respect of any liability referred to in clause (b) of sub-section (1) of section 93 shall on demand by or on behalf of the person making the claim refuse to state whether or not he was insured in respect of that liability by any policy issued under the provisions of this Chapter, or would have been so insured if the insurer had not avoided or cancelled the policy, nor shall he refuse, if he was or would have been so insured, to give such particulars with respect to that policy as were specified in the certificate of insurance issued in respect thereof.

(2) In the event of any person becoming insolvent or making a composition or arrangement with his creditors or in the event of an order being made for the administration of the estate of a deceased person according to the law of insolvency, or in the event of a winding up order being made or a resolution for a voluntary winding up being passed with respect to any company or of a receiver or manager of the company's business or undertaking being duly appointed or of possession being taken by or on behalf of the holders of any debentures secured by a floating charge on any property comprised in or subject to the charge, it shall be the duty of the insolvent debtor, personal representative of the deceased debtor or company, as the case may be, or the official assignee or receiver in insolvency, trustee, liquidator, receiver or manager, or person in possession of the property to give at the request of any person claiming that the insolvent debtor, deceased debtor or company is under such liability to him as is covered by the provisions of this Chapter, such information as may reasonably be required by him for the purpose of ascertaining whether any rights have been transferred to and vested in him by section 95, and for the purpose of enforcing such rights, if any; and any such contract of insurance as purports whether directly or indirectly to avoid the

contract or to alter the rights of the parties thereunder upon the giving of such information in the events aforesaid, or otherwise to prohibit or prevent the giving thereof in the said events, shall be of no effect.

(3) If the information given to any person in pursuance of sub-section (2) discloses reasonable ground for supposing that there have or may have been transferred to him under this Chapter rights against any particular insurer, that insurer shall be subject to the same duty as is imposed by the said sub-section on the person therein mentioned.

(4) The duty to give the information imposed by this section shall include a duty to allow all contracts of insurance receipts for premiums, and other relevant documents in the possession or power of the person on whom the duty is so imposed to be inspected and copies thereof to be taken.

Settlement  
between  
insurers and  
insured  
persons.

**97.** Where a person who is insured under a policy issued for the purposes of this Chapter has become insolvent, or where, if such insured person is a company, a winding up order has been made or a resolution for a voluntary winding up has been passed with respect to the company, no agreement made between the insurer and the insured person after liability has been incurred to a third party and after the commencement of the insolvency or winding up, as the case may be, nor any waiver, assignment or other disposition made by or payment made to the insured person after the commencement aforesaid shall be effective to defeat the rights transferred to the third party under this Chapter, but those rights shall be the same as if no such agreement, waiver, assignment or disposition or payment had been made.

Saving in  
respect of  
sections 95, 96  
and 97.

**98.** (1) For the purposes of sections 95, 96 and 97, the expression "liabilities to third parties" in relation to a person insured under any policy of insurance shall not include any liability of that person in the capacity of insurer under some other policy of insurance.

(2) The provisions of sections 95, 96 and 97 shall not apply where a company is wound up voluntarily merely for the purposes of reconstruction or of an amalgamation with another company.

Insolvency  
of insured  
persons not  
to affect  
claims by  
third  
parties.

**99.** Where a certificate of insurance has been issued to the person by whom a policy has been effected, the happening in relation to any person insured by the policy of any such event as is mentioned in sub-section (1) or sub-section (2) of section 95 shall, notwithstanding anything in this Chapter, not affect any liability of that person of the nature referred to in clause (b) of sub-section (1) of section 93; but nothing in this section shall affect any rights against the insurer conferred under the provisions of sections 95, 96 and 97 on the person to whom the liability was incurred.

Further rights  
of third  
parties and  
effect of  
death on  
certain  
causes of  
action.

**100.** (1) No settlement made by an insurer in respect of any claim which might be made by a third party in respect of any liability of the nature referred to in clause (b) of sub-section (1) of section 93 shall be valid unless such third party is a party to the settlement.

(2) Notwithstanding anything contained in section 306 of the Indian Succession Act, 1925, the death of a person to whom a certificate of insurance had been delivered if it occurs after the happening of an event which has given rise to a claim under the provisions of this Chapter, shall not be a bar to the survival of any cause of action arising out of the said event against his estate or against the insurer.

- (b) if the insurer has issued to the insured the policy described in the certificate, but the actual terms of the policy are less favourable to persons claiming under or by virtue of the policy against the insurer either directly or through the insured than the particulars of the policy as stated in the certificate, the policy shall, as between the insurer and any other person except the insured, be deemed to be in terms conforming in all respects with the particulars stated in the said certificate.

Duty to

## DRIVING REGULATIONS.

1. The driver of a motor vehicle shall drive the vehicle as close to the near or left hand side of the road as may be expedient, and shall allow all traffic which is proceeding in the opposite direction to pass him on his off or right hand side.

2. Except as provided in regulation 3, the driver of a motor vehicle shall pass to the right of all traffic proceeding in the same direction as himself.

3. The driver of a motor vehicle may pass to the left of a vehicle which having indicated an intention to turn to the right has drawn to the centre of the road and may pass a tram-car or other vehicle running on fixed rails, whether travelling in the same direction as himself or otherwise, on either side:

Provided that in no case shall he pass a tram-car at a time or in a manner likely to cause danger or inconvenience to other users of the road or pass on the left hand side a tram-car, which when in motion would be travelling in the same direction as himself, while the tram-car is at rest for the purpose of setting down or taking up passengers.

4. The driver of a motor vehicle shall not pass a vehicle travelling in the same direction as himself under the following circumstances, namely:—

- (a) when his passing is likely to hold up, inconvenience or cause any danger to other traffic proceeding in any direction, or
- (b) when a point or corner or a hill or a police officer on traffic control duty or an obstruction of any kind renders the road ahead not clearly visible.

5. The driver of a motor vehicle shall not, when being overtaken or being passed by another vehicle, increase speed or do anything in any way to prevent the other vehicle from passing him.

6. The driver of a motor vehicle shall slow down when approaching a road intersection, a road junction or a road corner, and shall not enter any such intersection or junction until he has become aware that he may do so without endangering the safety of persons thereon.

7. The driver of a motor vehicle shall on entering a road intersection, if the road entered is a main road designated as such, give way to the vehicles proceeding along that road, and in any other case give way to all traffic approaching the intersection on his right hand.

8. The driver of a motor vehicle shall, when passing or meeting a body of troops or police on the march or when passing workmen engaged on road repair, drive at a speed not greater than fifteen miles an hour.

9. The driver of a motor vehicle shall—

- (a) when turning to the left, drive as close as may be to the left hand side of the road from which he is making the turn and of the road which he is entering;
- (b) when turning to the right, draw as near as may be to the centre of the road along which he is travelling and cause the vehicle to move in such a manner that—
  - (i) it passes beyond, and so as to leave on the driver's right hand, a point formed by the intersection of the centre lines of the intersecting road, and
  - (ii) it arrives as near as may be at the left hand side of the road which the driver is entering.

**THE ELEVENTH SCHEDULE.**

(See section 76.)

**SIGNALS.**

1. When about to turn to the right or to drive to the right hand side of the road in order to pass another vehicle or for any other purpose, a driver shall extend his right arm in a horizontal position outside of and to the right of his vehicle with the palm of the hand turned to the front.

2. When about to slow down or turn to the left, a driver shall extend his right arm with the palm downward and to the right of the vehicle and shall move the arm so extended up and down several times in such a manner that the signal can be seen by the driver of any vehicle which may be behind him.

3. When about to stop a driver shall raise his right forearm vertically outside of and to the right of the vehicle, palm to the front.

4. When a driver wishes to indicate to the driver of a vehicle behind him that he desires that driver to overtake him, he shall extend his right arm and hand horizontally outside of and to the right of the vehicle and shall swing the arm backwards and forwards in a semi-circular motion.

## STATEMENT OF OBJECTS AND REASONS.

It has been recognised now for some years past that the Indian Motor Vehicles Act, 1914, which was framed to suit conditions at an early stage of development of motor transport, is no longer adequate to deal with conditions brought about by the rapid growth of motor transport in the past two decades. In the interests alike of the safety and convenience of the public and of the development of a co-ordinated system of transport, much closer control is required than the present Act permits, and it is necessary to take powers to regulate transport.

2. The question of the co-ordination of road and railway and the methods by which the object can be secured consistently with the public interest has engaged the attention of the Government of India for some years past. As early as 1933, Messrs. Mitchell and Kirkness carried out, at the instance of the Government of India, an enquiry into these problems and submitted a report in which they emphasized the importance of early action. The Road-Rail Conference convened by the Government of India in the same year passed a resolution, *inter alia*, recommending control of public service and goods motor transport. In January 1935 the first Transport Advisory Council made definite recommendations to the same effect. In the following year a Bill was framed to give effect to these recommendations which was approved by the second Transport Advisory Council who also recommended a complete overhaul of the Act of 1914 at an early date and the appointment of a committee to enquire into and report on the subject of compulsory insurance of motor vehicles.

3. A Bill was introduced in August 1936 to amend the Act of 1914 on certain points. It was, however, recognized then that a more comprehensive measure would have to follow. The Legislature decided that the Bill should be circulated and this was done, but before further action could be taken on it, the reports of the Motor Vehicles Insurance Committee and of the Wedgwood Committee were received. Government decided that in the circumstances it was preferable to drop the partial measure and to present a more comprehensive Bill. The present Bill incorporates the main recommendations of both these Committees and is the outcome of consultations with Provincial Governments and the third Transport Advisory Council which deliberated on it in December last. The principle of compulsory insurance has been approved by almost all the Provincial Governments, though there are differences of opinion as to whether its adoption should be entirely optional or whether, in the interests of uniformity, its adoption within a certain period of time should be obligatory.

NEW DELHI;

The 3rd March, 1938.

## NOTES ON CLAUSES.

## CHAPTER I.

*Clause 1.*—"Extent"—Some provinces are not in favour of introducing compulsory insurance immediately. It is therefore proposed to allow five years as the period in which it may be introduced.

## CHAPTER II.

*Clause 3*—makes a distinction between professional and private drivers. Some provinces already have the distinction and others have an implied distinction in that drivers who intend to work as chauffeurs have photographs on their licences.

*Clause 4.*—Although most provinces agree to the 21-year minimum age limit for drivers of transport vehicles and have such provision in their existing rules, one or two others see no necessity for this restriction. Sub-clause (3) will therefore enable them to allow drivers under 21 to drive transport vehicles, particularly delivery vans, within the province only.

*Clause 7 (3).*—The consensus of opinion of Provincial Governments is that medical certificates should be obligatory for all drivers other than owner drivers, and even from the latter the licensing authority should be empowered to demand a medical certificate if he is not satisfied as to the applicant's general appearance of fitness.

*Clause 7 (4).*—The consensus of opinion of Provincial Governments is that photographs should be submitted by these two classes of applicants.

*Clause 7 (6).*—Since the intention is that licences should be valid throughout British India, all applicants for new licences should pass the test specified in the Third Schedule in driving the class of vehicle specified in the application. An exception is made of existing licences under the Indian Motor Vehicles Act, 1914, as it would be impracticable to insist on their passing the driving test.

The proviso will meet the case of applicants particularly from overseas who have previously held licences granted in their own countries.

*Clause 8 (2).*—The necessity for these various classes of licences is apparent. (i) covers the rare case of a man with some physical disability, e.g., only one leg, who may be permitted to drive a very light car or one specially adapted for him.

*Clause 9 (1).*—There are varying opinions as to how far licences should have all-India validity. One or two provinces are in favour of extending all-India validity to all licences including those to drive public service vehicles. On the other hand, one province would not extend all-India validity to a licence to drive a goods vehicle. One or two would like power to impose special restrictions in special areas. The majority however feel that drivers of public service vehicles should be under stricter supervision in view of their responsibility for the safety of the public. It is therefore proposed that licences to drive public service vehicles should by provincial rules only be valid in the province when endorsed to that effect, and that, in view of the stringency of the specified test for drivers, all-India validity should be extended to all other forms of licences.

*Clause 9 (2).*—The position in respect of the validity of licences issued in States is chaotic. Most provinces have rules extending validity to licences issued in States specified in a schedule to the rules but these have not been uniformly amended and frequently differ in consequence. It is proposed therefore that licences issued by States to *bona fide* residents should generally be valid.

*Clause 9 (3).*—The general opinion is that while the licensing authority should judge as to a person's competence and physical fitness to drive, the transport authority in the discharge of its special responsibility for the control of public service vehicles should have the final say as to the persons by whom such vehicles should be driven. There is however some difference of opinion in this matter, and it is therefore left to the rule making powers of Provincial Governments.

*Clause 11.*—A uniform renewal fee is necessary. Provision is made for the renewal at ordinary rates of an expired licence by a person who, for example, has been ill for a sustained period or out of India on long leave and so genuinely unable to renew his licence in time.

*Clause 13.*—Sub-clause (2) provides the necessary check upon irregular or arbitrary use of power by licensing authorities.

*Clause 14.*—The intention of this is to continue and regularise the present arrangement under which Army and Air Force drivers are licensed by Army and Air force authorities. This is done at present by a long standing agreement with Provincial Governments, who have tacitly accepted the arrangement or formally granted exemption under section 13 of the existing Act of 1914. The holders of these licences will however be subject to the ordinary law (including punishment by Courts, suspension and endorsement of licence) and in addition will not be enabled by the licences to drive any vehicle other than one owned by the Central Government.

*Clause 15.*—This repeats, in a form amplified to meet present requirements, the provision in section 18 (I) of the existing Act.

*Clause 16.*—Transport authorities are responsible for seeing that public service vehicles are run in the best interests of and to the safety of the travelling public. It seems only reasonable therefore that they should have a deciding word as to the persons by whom public service vehicles are driven.

*Clause 17.*—Some Provincial Governments have made rules under section 18 (IA) of the Indian Motor Vehicles Act, 1914, delegating to licensing authorities power to suspend or cancel licences. Since disqualification is a severe punishment it is considered more satisfactory

to leave its infliction to the decision of the Court, after a proper trial. The offences themselves, however, are grouped in two categories: those for which disqualification should be obligatory, and those for which disqualification may be left to the discretion of the Court.

*Clause 19.*—In order to secure a reasonable measure of uniformity in respect of the endorsement of licences, the offences in respect of which the Courts shall be bound to endorse licences are specified in the Fifth Schedule. Licences will therefore invariably be endorsed by the Courts for these offences and by the Courts or other competent authority in respect of any period of disqualification. The offences specified in the Schedule will be those in respect of which endorsement is necessary. Other offences not specified will be of a technical nature and, although no specific provision is made, the intention is that they should not be endorsed.

*Clause 20.*—In order to secure uniformity in respect of the issue of a clean licence after three years' clean driving, in conformity with the views expressed by the majority of Provincial Governments, it is proposed that in the Schedule specifying offences, convictions in respect of which are to be endorsed on licences, shall be divided into two parts—Part A will contain the more serious offences, endorsements in respect of which should never be expunged and must be repeated on any new licence issued, and Part B will specify the offences the endorsements in respect of which can be expunged after three years' clean period of driving. Thus, in the event of any person being prosecuted for an offence under this Act, his licence will furnish a record of all previous convictions of a serious nature as well as recent convictions of a less serious nature, and upon demand by the prosecution for the disqualification of the holder the courts may normally be expected to disqualify a habitual offender. The power of licensing authorities to disqualify will therefore not be as necessary as it is held to be at present.

### CHAPTER III.

*Clause 22.*—*Cf.* Indian Motor Vehicles Act, 1914, section 10.

Sub-clause (2) usually appears at present in provincial rules.

*Clauses 23, 28 and 29.*—The increasing inter-provincial circulation of vehicles makes it very desirable that registration shall have all-India validity. The object of these clauses therefore is that a certificate of registration as such when once taken out shall be valid in perpetuity throughout British India, and shall remain as a history of the vehicle during the vehicle's life. But if the vehicle is transferred from one province to another for a period greater than twelve months, the owner will have to apply in the new province for the allotment of a fresh distinguishing mark (registered number) which will be entered in the certificate of registration. The documents and record of registration will then be transferred to the new province. This will necessitate amendment of some provincial taxation Acts, but it is felt that the disadvantages of linking registration to taxation out-weigh the advantages.

*Clause 24.*—The range of vehicles is extending farther and farther beyond provincial boundaries and the desirability of uniform distinguishing marks is becoming more evident.

*Clauses 26 and 27.*—These provisions already appear in provincial rules.

*Clauses 30-32.*—These reproduce the substance of what already appears in provincial rules, but to facilitate matters for the vehicle owner they enable him to report a change of address or of ownership, or alteration in the vehicle to a registering authority who is convenient for the purpose.

*Clause 33.*—This again appears in substance in provincial rules, but additional provision is included requiring that if a defective vehicle is not repaired within a reasonable period its registration shall be cancelled.

*Clauses 35 and 36.*—In order to check overloading the maximum permissible weight and axle weights must be specified in the registration certificate. The registering authority has no means of determining these and it is proposed therefore to require the manufacturer to certify

in respect of every chassis. To guard against the possibility of the certified weight being incorrectly specified, it is proposed that the legal weight on any axle shall be governed by the size of the pneumatic tyres attached to the wheels of that axle in accordance with scheduled permissible loads on tyres of different sizes.

*Clause 36 (3)*--is intended to meet the case of an owner who registers his vehicle for a specified laden weight on one set of tyres, and then puts on smaller tyres which have a lower carrying capacity. If the gross load on the smaller tyres exceeded the maximum load calculated in accordance with the provisions of the Tenth Schedule an offence of overloading would arise.

*Clause 37*.—As registration is not to be renewed annually, it is necessary to provide that transport vehicles shall be brought up periodically, or as required, for mechanical inspection. It is proposed to do this by attaching to the registration certificate a certificate of fitness which will specify the date by which the vehicle has to be re-examined. One real advantage to be derived from these certificates is that the inspection will take place as and when due, and there will be no necessity for any disorganisation of passenger services due to all vehicles being called up for examination at a particular time.

*Clause 38*.—This provides for the continuance of the existing arrangements under which Defence Department vehicles are exempt from the ordinary procedure of registration.

#### CHAPTER IV.

*General*. This Chapter legislates specifically for the control of transport vehicles, *i.e.*, vehicles carrying passengers for hire or reward, or goods whether for hire or reward or otherwise. Such vehicles are divided into four classes, namely:—

- (a) stage carriages, *i.e.*, motor buses on regular or quasi-regular services;
- (b) contract carriages, *i.e.*, taxis and other motor cabs, and buses used for special occasions;
- (c) private carriers (of goods); and
- (d) public carriers (of goods).

The general scheme is that the control of these separate classes of vehicles should be in the hands of transport authorities constituted for specified areas within the province; and that for the purpose of co-ordination, hearing appeals, etc., there should also be constituted a transport authority for the province. The constitution of these bodies is a matter upon which the Provincial Governments have particularly been consulted.

All motor transport vehicles must be covered by a permit issued by the transport authority of an area, and the effectiveness of every permit will depend on the observance by the holder of recognised general conditions such as the satisfactory maintenance of the vehicle, the observance of prescribed speed limits, and the avoidance of overloading the vehicle or overworking the drivers.

*Clauses 40 (2), 49 and 50*.—The *bona fide* private carrier should not be required to justify his application in the face of opposition by other providers of transport although the private carrier will in other respects, *e.g.*, weight and speed limits, and safety regulations, be under the same obligation as the public carrier. All provinces, save one, have agreed that a differentiation between the two classes is necessary and that a private carrier should have a permit for identification on the road and to show that the vehicle is being rightly used. One province would make no distinction but the Bill follows the English practice in which this distinction is made. In England a private carrier's permit is easily obtained because the granting of the permit is not open to opposition by providers of public transport.

*Clause 40 (4)*.—This sub-clause will enable Provincial Governments to deal with the private bus, control over which they may deem desirable.

*Clause 41 (1).*—The extent of the region and the constitution of the regional authority are left entirely to Provincial Governments, as it is impossible to specify in the Bill, except by way of the general indication given in clause 41 (3), a constitution which would suit the different conditions, sizes of region, etc., prevailing in each province.

*Clause 41 (2).*—The constitution of the provincial authority is permissive. It may be required for purposes of co-ordination or to settle differences between regional authorities or to increase control over through routes. Some statutory basis is therefore required.

*Clause 41 (3).*—This indicates how authorities may be constituted. What may suit one province may not suit another; but if a composite authority is constituted containing representatives of transport interests, then it is only equitable that the main transport interests should be accorded equal representation.

*Clauses 44, 47 and 52.*—lay down the general principles which should guide transport authorities in granting permits for stage or contract carriages or to public carriers. These embody the accepted principles of public necessity and convenience, the prevention of uneconomic competition, and the suitability of the roads to carry the forms of transport requiring the permits. In the case of public goods traffic, the principle adopted is that, while the transport of perishables by short distance transport by road in order to avoid delay and damage caused by terminal transshipment should not be interfered with, long distance traffic should be left primarily to railways.

*Clause 45 (d) (ii).* It has been urged from more than one quarter that a route permit holder in return for the security given to him against unreasonable competition should maintain a regular service, i.e., have the responsibilities of a public utility company.

*Clause 50 (1).*—The roads generally are not fit for sustained heavy traffic and this is a consideration which must be taken into account.

*Clause 50 (2).*—For instance, the owner of a sugar mill might hold a private carrier's permit to carry cane, sugar, coal and mill stores within a radius of fifty miles from his mill. If found outside that radius or carrying other goods, breach of the conditions would occur.

*Clause 51 (d).*—The justification for using the roads for heavy goods traffic where alternative facilities exist depends to a large extent on the nature of the goods to be carried. For some the longer time taken by rail or water will be sufficient justification, for others the time factor can be largely discounted. Regional authorities will have to exercise their discretion.

*Clause 51 (e).* It is desirable that the applicant should be called upon to show public need i.e., with reference to particular classes of goods, or that certain firms had agreed to employ him.

*Clause 52.* These conditions are of common application; (d) is intended to indicate that regional authorities should consider any representation that if they allow much highly rated traffic to be diverted from rail to road other railway freights will inevitably be raised.

*Clause 59 (1).*—Provision has been made in sub-clause (2) (h) of clause 64 for rules whereby provincial authorities may make mutual arrangements for validating permits outside their jurisdiction without countersignature.

*Clause 59 (4).*—This is necessary particularly for temporary permits for vehicles for feasts, weddings, funerals, etc.

*Clause 61.*—These provisions are desirable but are not likely to be generally enforced until more regularly timed services are established. But they will be used against an owner in the event of an accident where the driver has been grossly overworked, and also in well-known cases of abuse.

*Clause 65.*—The transitory provisions are required because the transport authorities contemplated in this Chapter cannot be expected to function effectively straightaway.

## CHAPTER V.

*Clause 67.* The rule-making powers outlined in this section are unavoidable. Although uniformity in respect of rules in this Chapter is desirable, such rules cannot conveniently be incorporated in the Bill owing to periodical changes in the design of vehicles from time to time.

## CHAPTER VI.

*Clause 68, sub-clause (1), and the Eighth Schedule.*—It may with some force be argued that speed limits are connected with the local strength of roads and should be left for local prescription. But, as in the case of permissible weights, there are advantages in making speeds uniform. It is true that motor transport vehicles will ply within the province but there will always be a good deal of traffic across provincial borders. There are other practical reasons why uniform speed limits should be uniform and imposed by the Act, e.g., in case risks may vary with permissible speed and it is desirable that premium rates should be uniform throughout India. If mechanical speed governors are introduced, as is to be hoped, they must be set for a certain speed and be sealed by some authority. A governor set for the legal speed in one province may be illegal in another if there is a difference in speed limits. Uniform reasonable speed limits coupled with the compulsory use of speed governors will tend to reduce not only accidents but also premium rates.

*Clause 69.*—The object is twofold. Firstly, to put a stop to gross overloading by specifying a maximum permissible weight and axle weight which is reasonable for vehicles at present in general use. Secondly, a reasonable limit is imposed which will generally apply but can be varied upwards or downwards by Provincial Governments to suit local conditions.

*Clauses 72 and 75 and Ninth Schedule.*—The signs included in the Ninth Schedule have from time to time been standardised for use in India in consultation with Provincial Governments.

*Clauses 75 and 76 and the Tenth and Eleventh Schedules.*—The substance of these Schedules appears in varying form in provincial rules, but it is desirable that driving regulation and signals should be uniform in respect of motor vehicles. For instance, a driver coming to a strange town should not be liable to commit an offence in passing a tram-car owing to local variations in traffic rules.

*Clauses 77-85.*—These will standardise similar provisions in provincial rules.

*Clause 85.*—This reproduces the existing definition in 4 of the Indian Motor Vehicle Act, 1914, with the additional definition of "animal".

*Clause 86.*—This annex appears in substance in provincial rules.

*Clause 87.*—This is very necessary and it is proposed that the penalty for its breach should include disqualification under clause 17 (6).

## CHAPTER VII.

*Clause 90.* Under this, rules can be made not only to deal with vehicles covered by an International Convention but also those coming from and going to countries which are not signatories to a Convention.

## CHAPTER VIII.

*General.*—The provisions relating to compulsory insurance in respect of third party risks follow closely the recommendations of the Motor Vehicles Insurance Committee and are almost wholly adapted from the English law.

*Clause 93.*—The limits of cover are those recommended by the Motor Vehicles Insurance Committee. In sub-section (3) power is given to Provincial Governments to require, in addition, that the liability of an owner in respect of claims arising under the Workmen's Compensation Act shall also be covered by insurance.

*Clause 94.*—Sub-clause (3) is a variation of section 38 of the English Road Traffic Act, 1930, and section 12 of the English Road Traffic Act, 1934. Those sections provide that an insurer could not repudiate liability on account of the breach of certain specified conditions that the insurer might have inserted in the policy. The general effect of this provision has been given close attention by the Cassel Committee whose report has recently been published and they have recommended that, instead of specifying conditions for breach of which an insurer would not be able to avoid liability, it would be better to specify those for breach of which liability could be avoided. The draft of sub-clause (3) follows their recommendations in this respect. It is more satisfactory as it defines the exact position of the insurer in relation to the conditions he may impose.

*Clause 100 (2).*—This is as recommended by the Motor Vehicles Insurance Committee.

*Clause 103.*—This is as recommended by the Motor Vehicles Insurance Committee.

*Clause 106.*—This is as recommended by the Motor Vehicles Insurance Committee and incorporates the recommendations of the Cassel Committee in respect of mutual indemnity associations.

*Clause 107.*—This, as drafted, will enable Provincial Governments to take such action as they deem fit to ascertain that the purposes of this part of the Act are being generally fulfilled. Judicious action under this clause would lead to insurers relying on an authority of this nature for an unbiassed verdict as to their liability, and to a decrease in law suits.

*Clause 108.*—This is as recommended by the Motor Vehicles Insurance Committee and incorporates section 17 of the English Road Traffic Act, 1934.

#### CHAPTER IX.

*Clause 117.*—This is at present only an offence against provincial rules with the penalty specified in section 16 of the Indian Motor Vehicles Act, 1914, and possible suspension of the licence under section 18.

The offence is one which should be penalised heavily and be accompanied by disqualification (suspension of licence). This has been provided for in section 17 (5). It has also been made cognisable, but the proviso has been added to section 128 to prevent undue detention of an accused person in custody.

*Clause 118.*—It is obviously necessary that persons who become temporarily unfit, *e.g.*, through a broken arm, extreme fatigue or illness should be barred from driving, and in case of accident from pleading temporary unfitness as the cause of the accident.

*Clause 121.*—This provision usually appears in provincial rules.

*Clause 129, sub-clause (2)*—has been introduced as much difficulty is encountered in getting offenders to comply with the summons served on them.

*Clause 130.*—The provisions in this clause are considered to be necessary in view of the prevalent practice of creditors taking a driver's licence as security for a loan, etc.

*Clause 131.*—This provides for speedy action in technical prosecutions.

*Clause 132.*—This provision is reasonable in the interest of the motorist, to prevent him from being charged, after an unduly lengthy period, in connection with an alleged offence the circumstances of which may no longer be easily remembered.

**RESOLUTION—No. 2038P.H.**

Read—

The Report of the Director of Public Health, Bengal, for the  
year 1936.

**Vital Statistics.**—The Director of Public Health has given an interesting analysis of the vital statistics for the year under review. The number of births registered was 1,673,206, representing an increase of 39,077 over the number registered in the preceding year, and a rate of 33·5 per mille. The deaths in 1936 numbered 1,222,724 as compared with 1,131,427 in the previous year, representing an increase of 91,297 and a rate of 24·5 per mille. The birth rate was 2·4 above that of the preceding year while the death rate was 7·9 above that of 1935. The total births exceeded the deaths by 450,482 against an excess of 502,702 in the preceding year. The figures for the birth rate and mortality rate for the last ten years are as follows:—

Year.			Birth rate per mille of population.	Death rate per mille of population.
1926	..	..	27·4	24·7
1927	..	..	27·7	25·6
1928	..	..	29·6	25·6
1929	..	..	29·3	23·5
1930	..	..	26·6	22·4
1931	..	..	27·8	22·3
1932	..	..	26·6	20·5
1933	..	..	29·5	24·0
1934	..	..	29·3	23·6
1935	..	..	32·7	22·7

Although the birth rate in the year under review was the highest recorded since 1919, it was lower than the birth rate in the other provinces of India with the exception of the North-West Frontier Province, Assam and Sind. The highest birth rate recorded was in the district of Murshidabad (42·6) and the lowest in Calcutta (26·7). The number of males born to every 100 females during the year under report (108) as well as the proportion of male to female deaths remained the

same as in the preceding year. The lowest death rate was recorded in the district of Burdwan and the highest (32.6) in Calcutta. It must be observed, however, that in a very large proportion of the cases which ended fatally belonged to the category of what may be termed "imported" cases. Calcutta alone recorded an excess of deaths over births. The rate of natural increase in the province fell from 10.0 in 1935 to 9.0 in 1936. It was lower than in all other provinces except the Central Provinces, Sind and Orissa.

**Infantile and Maternal Mortality.**—The rate of infantile mortality, *i.e.*, the number of deaths of infants under 1 year of age per thousand births, which had shown a marked decrease in 1935, rose from 158.5 to 170.9 in 1936. The number of infantile deaths in 1936 was 285,956 representing 23.4 per cent. of the total deaths in the province. 56.5 per cent. of the total infantile mortality occurred among infants under the age of 1 month.

The number of still births showed a slight upward tendency, being 73,399 compared with 72,558 in the previous year. The ratio of still births to live births, however, remained stationary. The number of maternal deaths was 16,581 against 15,608 in 1935. The rate of maternal mortality per thousand live and still births (9.9) showed an increase of 0.4 on the 1935 figure.

The development of maternity and child welfare services is urgently needed to cope with this obstinate and difficult problem. Maternity and child welfare work is mainly a responsibility of the local authorities towards which Government make an annual grant inclusive of a grant for training of indigenous *dais*, besides making grants-in-aid to maternity and child welfare centres and towards educative propaganda through the Bengal Health Welfare Committee. The provision for training of pupil nurses and *dais* in the State and private hospitals continues to be inadequate. A number of proposals for coping with this problem of reduction of maternal mortality and morbidity and child mortality is engaging the attention of the Minister. In the meanwhile the Ministry would urge the local authorities to spare no efforts to put into operation all measures within their power for the benefit of mothers and children and to devote a larger share of their resources towards these services.

**Cholera.**—There was a serious increase in the incidence of this disease during the year under review, the total number of deaths from cholera being 76,100 against 59,605 in 1935 and representing an increase of 50 per cent. over the average of the preceding quinquennium. The provincial death rate from cholera per thousand of population rose to 1.5 from 1.2 in the preceding year. The districts which recorded the highest death rates were Faridpur (4.5), Dacca (3.3), 24-Parganas (2.8) and Jessore (2.8). The district of Darjeeling continued to maintain its freedom from cholera, while Dinajpur and Jalpaiguri returned the lowest death rate, *viz.*, 0.1. The total number of deaths from cholera in rural areas during the year was 72,246, representing a death rate of 1.6 per mille. 3,854 deaths occurred in towns, the rate per mille being 1.1 against 1.4 in the preceding year. The incidence of mortality from this disease was higher than in any other province except Central Provinces and Bihar.

**Cholera-preventive Measures.**—The number of doses of cholera vaccine issued was 2,544,805 against 2,689,025 c.c. and the total number of inoculations performed was 2,211,678 against 2,329,326 in the preceding year. The Director of Public Health ascribes the decrease in the issue of doses of vaccine and in the number of inoculations partly to defective reporting and partly to defective organisation on the part of the local authorities in carrying out the work of preventive inoculation. The existing skeleton rural health organisation in each district with the District Health Officer at the head dealt with outbreaks with a fair measure of efficiency with the assistance rendered by the Public Health Department in the shape of additional staff for preventive and curative work wherever necessary. Preventive measures included disinfection of sources of water-supply, extensive public health propaganda work through the rural public health units and the divisional publicity staff and promulgation of regulations under the Epidemic Diseases Act, which gave power for securing summary abatement of causes of infection. Apart from the need for the development of a sense of community responsibility in the matter of personal and environmental hygiene, the prevention of this formidable epidemic disease is very largely bound up with the problem of provision of adequate sources of pure drinking water throughout the province according to a definite programme. This matter is engaging the attention of Government.

**Small-pox.**—The cyclic rotation of small-pox appears to have reached its lowest point in 1935 with 7,548 deaths. The recorded number of deaths from this disease in the year under review was 46,267, representing 3·8 per cent. of the total provincial mortality and 0·9 per thousand of the population and an increase of 600 per cent. over the figure of 1935 and of 350 per cent. over the average of the previous quinquennium. The rate of mortality was by far the highest among the provinces in British India.

Of the total number of deaths from small-pox, 4,364 occurred amongst children under 1 year of age and 10,099 amongst children between ages of 1 to 10 years. The district of Murshidabad was the worst sufferer with a rate of 7·17 per thousand. Bogra with 0·05 and Bakarganj with 0·03 were the least affected. Of the total deaths in towns, Calcutta was responsible for 44·2 per cent. with a rate of 3·84 per mille against 1·03 in 1935 and against an average of 1·28 in the preceding decade. The number of persons vaccinated during the year under review was 9,137,320 against 9,106,830 in 1935 and constituted a record. The average cost of each successful vaccination remained the same, viz., 1 anna 6 pie. The average cost of the manufacture of vaccine lymphs per dose of half a grain was thus reduced from 1·4 pie in 1935 to 0·94 pie in the year under review. In a country and a province where the provision for compulsory isolation is outside the range of practical considerations and where the sanitary consciousness and responsibility of the individual is undeveloped among the mass of the people, vaccination is the only effective preventive against outbreaks. Although primary vaccination is compulsory throughout the province it is well known that a large number of children escapes primary vaccination and consequently remains unprotected. The responsibility for effectively enforcing primary vaccination lies with the local authorities. The Ministry would impress upon the local authorities the urgent necessity of organising an intensive campaign of vaccination according to a fixed programme spread over a limited number of years so as to cover effectively the population of the whole district. Suggestions have been made

from time to time that secondary vaccination should also be made compulsory. The matter is engaging the attention of Government but a universal practice of repeated vaccinations is likely to remain an ideal, difficult of attainment, until the general public come forward to accept secondary vaccination so as to reduce needless suffering and the risk of premature death from small-pox to a minimum.

**Fevers—Malaria and Kala-azar.**—The number of deaths recorded under "fevers" represented, as usual, the bulk of the number of deaths recorded during the year, viz., 716,142 or 58·4 per cent. against 715,628 or 62·4 per cent. in the preceding year. Not much significance can, however, be attached to this figure as it included deaths from diseases of a widely varying character. The registration of deaths continued to be in the hands of village chowkidars, whose reports cannot be completely relied upon in regard to the causes of deaths. The district recording the highest mortality from fevers was Dinajpur (23·7) and the lowest death rate was returned, as in the previous two years, from Calcutta (3·6).

Malaria was responsible for 337,647 deaths as against 342,955 in the preceding year, giving a rate of 6·8 per mille. The highest death rates were returned by Rajshahi (18·7 per mille) and Jessore (13·9), while the morbidity from malaria was the highest in Nadia. Compared with the death rates in the preceding year, 10 districts showed an upward trend, while 15 districts returned lower rates of mortality.

Deaths from Kala-azar totalled 21,161 as against 17,469 in 1935. The death rate (0·4 per mille) shows a steady though slow increase from 0·35 in 1935 and 0·29 in 1934. There was a decrease of 483 in the number of new Kala-azar cases. This decrease was noticeable in Rajshahi, Rangpur, Malda and Murshidabad. On the other hand Mymensingh, Noakhali and Hooghly showed a marked increase in new cases. Death rate in urban areas remained more or less stationary, but the number of deaths rose in the rural areas by 3,712 or 22·2 per cent. While Kala-azar is fairly amenable to treatment, it tends to re-appear as soon as efforts are relaxed by local authorities and treatment centres are closed down. The two towns of Kurseong (11 per mille) and Jalpaiguri (10 per mille) recorded the highest rates of mortality from Kala-azar.

**Special Anti-malarial Measures.**—The rural mass treatment scheme with cinchona and plasmochin which was started in 1933 in the Memari police-station in the district of Burdwan was continued during the year. A departure was, however, made in the system of treatment by issuing to all school children quinine for seven days and plasmochin for five days from the third day of quinine treatment. Outside the schools all children and adults with enlarged spleen were given similar treatment. After the completion of the distribution of drugs on the above lines the usual treatment centres were reopened as in previous years, a modification being, however, made on the above lines in treating actual fever cases attending these centres.

The year under review was one of excessive rainfall and the incidence of malaria was lower than in the preceding two years. Compared with the first year of the experiment, the morbidity was reduced by 69·3 per cent. in the experimental area whereas in the control area it fell by

53.5 per cent. The average parasitic index among children under 12 years recorded a marked fall both in the experimental and control areas. The spleen index of children under 12 years decreased to 31.4 compared with 66.0 in 1935 in the experimental area.

In connection with the *antiludlowii* menace, survey and control measures were carried out in the environs of Calcutta. The control measures in the Salt Lake area had received a temporary set-back owing to the non-receipt of contribution from the Corporation of Calcutta, but they were resumed after the receipt of a contribution from that body. The *antiludlowii* measures were carried out satisfactorily in the Budge Budge area with the willing co-operation of the mill authorities and the district board. The suburban railway areas were treated with successful results in collaboration with the various railway authorities.

**Respiratory diseases.**—There were 94,817 deaths from respiratory diseases, an increase of 9,949 over the figures of 1935, the death rate being 1.9 per mille compared to 1.7 per mille in the preceding year. The recorded death rate in several districts was higher than the average rate of the preceding decade and in 20 districts the death rate showed an increase over that of the previous year. As usual Calcutta recorded the highest death rate (8.9 per mille). Other high figures were Jalpaiguri (5.4), Howrah (4.1), Hooghly (3.8) and Darjeeling (3.5). Malda continued to record the lowest death rate, viz., 0.4 per mille.

Pneumonia accounted for 49,155 deaths, against 41,938 in 1935. The increase in mortality was shared by urban and rural areas. The highest death rate (7.5) was registered in the town of Arambagh. It is noticeable that the towns recording high death rates from pneumonia were, with one or two exceptions, centres of notoriously malariously areas.

Pulmonary tuberculosis (phthisis) was responsible for 15,266 deaths or 0.31 per mille against 16,524 or 0.33 per mille in the preceding year. The average death rate in certain areas was 1.18 per mille. The highest death rate (2.9) was recorded in Kurseong and the next highest (2.5) in Calcutta.

During the year under review inquiries were carried out with a view to finding a suitable site in the province for a climatic sanatorium for tuberculosis with the help of the generous donation of Rs. 2,80,000 made for this purpose by Babu Ram Coomar Bangur in the preceding year, and the services of Dr. Frimodt Moller, Medical Superintendent of the Madanapalli Sanatorium in Madras, were requisitioned by Government for giving advice regarding the best site in the province.

**Other diseases.**—There were 8,359 deaths from enteric fever compared to 8,709 in the preceding year. While the provincial death rate remained the same, the death rate showed an upward trend in all towns including Calcutta, which recorded an increase of 18.4 per cent. There was, however, a decrease of 6.7 per cent. in the rural areas. Dysentery took a toll of 30,905 lives and diarrhoea of 26,307 during the year under review as against 27,349 and 24,581, respectively, in the previous year. The two diseases were responsible for 4.7 per cent. of the total provincial mortality. The combined death rate was highest in Howrah (3.39) followed by Darjeeling (2.94). The Director of Public Health has pointed out that these two districts have for the last few years been returning the largest number of deaths in the province. There was one reported case of death from plague in Calcutta within the year.

**Leprosy.**—Leprosy accounted for 494 deaths in the province. Of this number the urban areas returned 35 deaths of which 20 occurred in Calcutta. The British Empire Leprosy Relief Association has carried on valuable survey and propaganda work which resulted in the establishment of more than two hundred clinics maintained by the local authorities in the various districts. The Director of Public Health has drawn particular attention to the good work done in this connection by the union boards in the district of Bankura which established 26 clinics.

**Fairs and festivals.**—The Director of Public Health has given an interesting account of the medical and sanitary arrangements made by the Public Health Department and the local authorities concerned for the prevention of the outbreak of infectious diseases at the Ganga Sagar and Nangalbandh melas which are attended every year by a large number of pilgrims. It is gratifying to note that there were only 6 cases of cholera at the Ganga Sagar mela and 4 cases in the Nangalbandh mela and that only one case in each mela proved fatal. The suggestions made by the Director of Public Health for adequately safeguarding public health in the various fairs and festivals will receive the careful consideration of Government.

**Sanitary works including water-supply.**—Rs. 47,18,185 or 37.0 per cent. of the total receipts inclusive of opening balance of municipalities was spent on sanitary works during the year under review, showing a decrease of 5 per cent. compared with the expenditure in the previous year. The average expenditure per head of municipal population was Rs. 204 against Rs. 213 in 1934-35. Of the total municipal expenditure on sanitation Rs. 24,23,401 was spent on conservancy, Rs. 9,81,763 on water-supply and Rs. 3,89,349 on drainage.

**Housing and town planning.**—Government have noted the suggestions made by the Director of Public Health with regard to the improvement of housing conditions in urban and rural areas which undoubtedly react on the general health of the people. A good deal of educative work with a view to creating a strong public opinion on the subject will, however, be necessary before any housing policy leading to the improvement of the existing conditions can be effectively adopted in the rural areas. In the meanwhile the Minister would impress upon the municipal authorities the desirability of a strict enforcement of building regulations in urban areas.

**School Hygiene.**—Thirteen School Medical Officers were employed under the Education Department in Calcutta. They visited 33 Government and Government aided secondary schools and examined 4,105 scholars during the year. Detailed examination was also conducted by the medical officers attached to non-government institutions. History sheets were filled up of 7,857 scholars. Of these 36.8 per cent. were found to be well nourished and 18.7 per cent. badly nourished. 26.7 per cent. of the students examined were found to have eye trouble. 9 per cent. had very defective teeth and 6.1 per cent. had enlarged tonsils. In the municipal areas other than Calcutta 28 medical officers visited 103 schools and examined 10,410 pupils— an improvement over the preceding year's figures. Of these 29.3 per cent. were well nourished and 27.1 per cent. ill-nourished. 10.3 per cent. had very defective teeth and 9.1 per cent. were found to be suffering from eye trouble. 2.8 per cent. of the students examined bore no vaccination marks.

In the rural areas 4,927 students were medically examined in 86 High English Schools as against 2,146 students in 54 schools in the preceding year. 35 per cent. of these boys were found to be well nourished, while 20 per cent. showed signs of poor nourishment. 6 per cent. of the students examined had enlarged spleen. 5,606 schools were visited by the rural sanitary staff. The number of pupils examined was 179,556 against 172,032 in 1935. Government recognise the fact that the school health service is far from satisfactory, and a combined scheme for school and industrial hygiene work is under the consideration of the Ministry.

**Health propaganda.**—Health publicity work was carried out throughout the province by the publicity staff by means of cinema shows, magic lantern demonstrations, exhibitions, health weeks and lectures. Ten touring cinema parties worked throughout the province. 10,613 cinema demonstrations were given and these were witnessed by 1,264,660 persons. The fall in the attendance compared to that of the preceding year has not been explained. Three new health films were prepared during the year. The Government exhibition van visited Jessore, Midnapore, and Nadia and held 58 demonstrations which were attended by over 70,000 persons.

**General.**—The normal activities of the department were maintained during the year under review although owing, among other reasons, to continued financial stringency, it was not found possible to effect any special development in the public health service. Besides meeting a moiety of the salaries of the health officers employed by the various local bodies, Government incurred an expenditure of Rs. 10,95,300 for maintenance of a skeleton rural health organisation in the province. A Government grant of Rs. 1,90,000 was made for the improvement of rural water-supply and a sum of Rs. 1,73,000 was also spent through the local officers for same purpose out of the Government of India's grant for rural uplift. Other subventions included Rs. 70,000 for combating Kala-azar, Rs. 45,000 for free vaccination and Rs. 2,26,200 for anti-malarial measures, inclusive of free distribution of quinine. The Tuberculosis Association, Bengal, was assisted with the usual annual grant of Rs. 10,000 and the Bengal Branch of the British Empire Leprosy Relief Association received a subsidy of Rs. 5,500 for educative propaganda. For the first time a contribution of Rs. 2,700 was sanctioned for augmenting local resources towards the establishment of leprosy clinics in the rural areas of Bankura, one of the most seriously affected districts.

The calls on the public health department by the local authorities at times of serious outbreaks of epidemics were many and the department was able to render very valuable assistance in combating them.

**Personal.**—Dr. R. B. Khambata held charge of the department till April 1936, when he was succeeded by Major (now Lt.-Col.) A. C. Chatterji, I.M.S. The Minister desires to record his appreciation of the services of Dr. R. B. Khambata and Lt.-Col. Chatterji in efficiently administering the department during the year under review.

By order of the Governor,

G. S. DUTT,

*Secy. to the Govt. of Bengal.*

2. No employed person can give up by contract or agreement his rights under the Act.

Definition of wages.

3. "Wages" means all remuneration payable to an employed person on the fulfilment of his contract of employment.  
It includes bonus and any sum payable for want of a proper notice of discharge.  
It excludes:—

(a) the value of house-accommodation, supply of light, water, medical attendance, or other amenity or of any service excluded by the Central Government;

(b) the employer's contribution to a pension or provident fund;

- (c) travelling allowance or concession or other special expenses entailed by the employment;
- (d) any gratuity payable on discharge.

Responsibility for and method of payment.

4. The manager of the factory is responsible for the payment under the Act of wages to persons employed under him, and any contractor employing persons is responsible for payment to the persons he employs.
5. Wage-periods shall be fixed for the payment of wages at intervals not exceeding one month.
6. Wages shall be paid on a working day within 7 days of the end of the wage-period (or within 10 days if 1,000 or more persons are employed).  
The wages of a person discharged shall be paid not later than the second working day after his discharge.
7. Payments in kind are prohibited.

Fines and deductions.

8. No deductions shall be made from wages except those authorised under the Act (see paragraphs 9—15 below).

9. (1) Fines can be imposed only for such acts and omissions as the employer may, with the previous approval of the Supervisor, specify by a notice displayed at or near the main entrance of the factory and after giving the employed person an opportunity for explanation.

- (c) shall be recorded in a register and applied to such purposes beneficial to the employed persons as approved by the Supervisor;
- (d) shall not be imposed on a child.

10. (a) Deductions for absence from duty can be made only on account of the absence of the employed person at times when he should be working and such deductions must not exceed an amount which is in the same proportion to his wages for the wage-period, as the time he was absent in that period is to the total time he should have been at work.

(b) If ten or more employed persons, acting in concert, absent themselves without reasonable cause and without due notice, the deduction for absence can include wages for eight days in lieu of notice, but:—

- (1) no deduction for breaking a contract can be made from a person under 15 or a woman,
- (2) there must be a provision in writing which for part of the contract of employment, requiring that a specific period of notice of intention to cease work not exceeding 15 days or the period of notice which the employer has to give to discharge a worker, must be given to the employer and that wages may be deducted in lieu of such notice,
- (3) the above provision must be displayed at or near the main entrance of the factory,
- (4) no deduction of this nature can be made until a notice that this deduction is to be made has been posted at or near the main entrance of the factory,

11. Deductions can be made for damage to or loss of goods expressly entrusted to an employed person or for loss of money for which he is required to account, where such damage or loss is due to his neglect or default.

Such deduction cannot exceed the amount of the damage or loss caused and can be made only after giving the employed person an opportunity for explanation.

12. Deductions can be made, equivalent to the value thereof, for house accommodation, amenities, or services (other than tools and raw material) supplied by the employer provided these are accepted by the employed person as a part of the terms of his employment and have in the case of amenities and services been authorised by order of the Central Government.

13. (a) Deductions can be made for the recovery of advances, or for adjustment of overpayment of wages.
